All you need to
know about food
temperature safety

COMARK

A Fluke Company

Essential food safety with Comark Instruments

If you're running a food business, mandatory EU legislation requires you to implement and maintain hygiene procedures based on strict HACCP principles where temperature and humidity are both critical factors

Comark Instruments has over 50 years experience as a leading, international manufacturer of high quality, precision thermometers, data loggers and wireless monitoring solutions, supplying over one million instruments per annum.

As experts in temperature, we provide products and monitoring solutions to the food industry that aid compliance with HACCP regulations and due diligence procedures, helping to improve product safety to customers, eliminate risk and reduce cost in the supply chain.

HACCP Touch

A NEW approach to HACCP management

A simple, paperless data management tool for today's busy kitchens!

The **HACCP Touch** is an easy and cost-effective system for collecting, recording and storing daily temperatures of critical items in receiving, storage, prep, cooking and holding, as well as many of the other checklists you've been filling out by hand.

- Paperless records and tamper-proof data
- Critical Control Points are monitored with programmed corrective actions
- Record HACCP temperatures and other checks
- Download to Microsoft Excel™ for reports
- Data export in PDF format

The free software is easy and intuitive to program and you can make plans as simple or detailed as you wish, so you record only what's important to you!

Diligence WiFi

Data loggers that stay on duty when you're off

Whether it's recipe ingredients or finished products, keeping temperature sensitive food within required limits during production and storage is vital. Customers demand it, consumers expect it, regulations insist on it, and the time may come when you need to prove it.

Diligence WiFi data loggers can monitor all your food storage and service areas from freezers, chillers and refrigerators through to cooking and holding temperatures. You are safe in the knowledge that alerts will notify you if anything does go wrong.

Use with Comark Cloud to:

- View data via smartphone, tablet or PC
- Receive real time alarms via email or SMS text*
- Protect your critical assets with cloud based wireless temperature and humidity monitoring

RF500 Wireless Monitoring

Exceptional integrity for complete peace of mind

Manual checks on temperature and humidity are a thing of the past. The RF500 does it automatically, reducing labour costs, eliminating errors and ensuring complete records are maintained in accordance with regulatory requirements.

In the event of readings falling outside pre-set limits, alarm notification allows immediate corrective action to be taken. This can make all the difference in terms of saving your product and protecting your reputation.

RF500 answers market demands for a reliable system which is easy to understand and operate but can just as easily be reconfigured or expanded in line with changing needs.

Key benefits include:

- Accurate records without compromise
- Secure multi-user access to data via the internet at any time
- Immediate alarm notification via email, phone or SMS*
- Transmitters that are waterproof and accurate, and have a long battery life
- Compliance with legislative and regulatory requirements

Warranty:

All **Comark** instruments have a minimum one year warranty unless otherwise stated. The warranty for temperature probes is six months and all other probes are unwarranted because the conditions of use are beyond our control. The **Comark** Warranty covers manufacturing defects and component failure and applies worldwide. In line with our policy of continuous development, we reserve the right to alter any product specification without notice.

Comark has an accredited UKAS (NIST equivalent) calibration laboratory for temperature and humidity measurement and offers full service and recalibration facilities.

Comark Instruments is committed to providing quality and affordable products to the food service industry. Our thermometers and humidity testers bring speed, accuracy and reliability to the transport, testing and storing of food under HACCP guidelines. A large variety of products, well-trained staff, and a commitment to customer satisfaction mean you can come to us for answers to all your temperature measurement needs!
