

# Comark Instruments

All you need to know about food  
temperature safety

The Professionals' Choice

# Essential food safety with Comark Instruments

If you're running a food business, mandatory EU legislation requires you to implement and maintain hygiene procedures based on strict HACCP principles where temperature and humidity are both critical factors.

Comark Instruments has over 50 years experience as a leading, international manufacturer of high quality, precision thermometers, data loggers and wireless monitoring solutions, supplying over one million instruments per annum.

As experts in temperature, we provide products and monitoring solutions to the food industry that aid compliance with HACCP regulations and due diligence procedures, helping to improve product safety to customers, eliminate risk and reduce cost in the supply chain.

Traceability is assured and legislative requirements are easier to meet using Comark instruments

## HACCP Touch

### A NEW approach to HACCP management

A simple, paperless data management tool for today's busy kitchens!

The HACCP Touch is an easy and cost-effective system for collecting, recording and storing daily temperatures of critical items in receiving, storage, prep, cooking and holding, as well as many of the other checklists you've been filling out by hand.

- Paperless records and tamper-proof data
- Critical Control Points are monitored with programmed corrective actions
- Record HACCP temperatures and other checks
- Download to Microsoft Excel™ for reports
- Data export in PDF format

The free software is easy and intuitive to program and you can make plans as simple or detailed as you wish, so you record only what's important to you!

## Diligence WiFi

### Cloud based data logging - view data from any internet enabled device

Whether it's recipe ingredients or finished products, keeping temperature sensitive food within required limits during production and storage is vital. Customers demand it, consumers expect it, regulations insist on it, and the time may come when you need to prove it. Diligence WiFi data loggers can monitor all your food storage and service areas from freezers, chillers and refrigerators through to cooking and holding temperatures. You are safe in the knowledge that alerts will notify you if anything does go wrong.

### Use with Comark Cloud to:

- View data via smartphone, tablet or PC
- Receive real time alarms via email or SMS text\*
- Protect your critical assets with cloud based wireless temperature and humidity monitoring.

\*Via an email to SMS service such as Textmagic.com.

## RF500 Wireless Monitoring

### Exceptional integrity for complete peace of mind

Manual checks on temperature and humidity are a thing of the past. The RF500 does it automatically, reducing labour costs, eliminating errors and ensuring complete records are maintained in accordance with regulatory requirements.

In the event of readings falling outside pre-set limits, alarm notification allows immediate corrective action to be taken. This can make all the difference in terms of saving your product and protecting your reputation.

RF500 answers market demands for a reliable system which is easy to understand and operate but can just as easily be reconfigured or expanded in line with changing needs.

### Key benefits include:

- Accurate records without compromise
- Secure multi-user access to data via the internet at any time
- Immediate alarm notification via email, phone or SMS\*
- Transmitters that are waterproof and accurate, and have a long battery life
- Compliance with legislative and regulatory requirements

## Contact Us

We understand there are times when our customers may need guidance on the best solution for their requirements. If you would like further information or to discuss your temperature monitoring application, please contact our customer service department who will be pleased to assist.
